Bottle Water = Safety & Eco-friendly ?

Safety

- Minerals such as Calcium, Potassium, Zinc and Magnesium will be eliminated in distilled water
- Water will be polluted during delivery
- Bacteria grow at dispensing area, water bowl and other parts of the bottled water dispenser

Eco-friendly

- Bottled water has a huge environmental impact. Carbon emission is created by production and transport of bottled water
- Most of the plastic bottles cannot be recycled. As a result, they will become plastic wastes and go to HK landfills. HK landfills will be full by 2020

Carbon Multi-Filtration System

- Filter impurities by 2 different size of filters from 1 micron - 20 micron
- Remove lead, odour, chlorine, pesticides, chemicals and other related contaminants effectively
- Keep natural minerals in water

* 1 micron means one millionth of a metre
Hair is 75-100 micron, bacteria is 0.2-3 micron

In - Tank UV Technology

- UV lamp is placed in the very centre of the cold tank
- UV light destroys the growth of bacteria by destroying its DNA core, thus rendering it incapable of reproducing
- Eliminate bacteria such as E. coli, Legionella, Salmonella Hepatitis and Cryptosporidium

BioCote® Anti-Microbial Protection

- Keep the dispensing area free from bacteria
- Kill up to 80% germs in 15 minutes and over 99% germs in 2 hours of contamination
- Eliminate bacteria such as Staphylococcus aureus, E. coli, Salmonella, Listeriosis, mold and fungus

Product Specifications

Item	Description
Water Options	Cold, Hot, Extra Hot
Temperatures	Cold 5-8°C ; Hot 85°C (Extra Hot up to 93°C)
Dimensions	34.5 (W) x 48 (H) x 36.7 (D) cm
Dispense Area Height	21.5cm
Weight	22-27kg
Capacity	Cold tank 2L ; Hot tank 1.5L

Our Design

Water Option Indicators

- Having water options indicators to let you know the water temperature

Our Service

Enjoy our service considerate service by monthly rental services:

Free Delivery & Installation

Yearly service with all parts and labour included: filters and UV lamp replacement, sanitization of the internal water dispenser *

Full call out and repair service – next working day

* except any damage caused by misuse
